

Transferring XRP to Lobstr

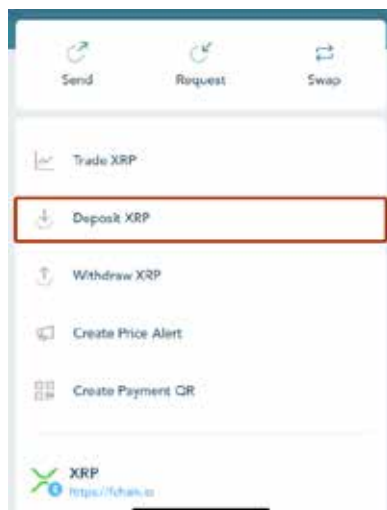

Note: This guide will show you the steps to make a transfer of XRP from your exchange/wallet into your Lobstr account. Your screens may look different than the examples shown but should be similar in steps and information needed to complete the transfer.

Transfer XRP from your Exchange/Wallet to Lobstr

- 1) Login to Lobstr, then select Assets from the main menu, select or Add XRP.

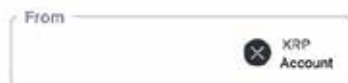

- 2) Click on Deposit from the XRP menu.

- 3) Copy the deposit address, and make sure you take note of the 5 digit destination tag (aka Memo). It will be **required** to complete your transfer. Also note there is a minimum transfer of 20 XLM.

- 4) Login to your Exchange/Wallet.
- 5) Select Withdrawal (or Send).
- 6) Select XRP as the coin/token you want to send from your account.

- 7) Select XRP Network if available.

- 8) Enter the amount of XRP you wish to send (remember there is a 20 XLM minimum), then paste the XRP deposit address that you copied from Lobstr and be sure to enter the destination tag (aka memo).

Remember the destination tag - transfers made without the destination tag may not arrive in your Lobstr wallet.)

- 9) Select preview, if possible, then click Send.
